PROCUSPHERE

POWERING NEXT-LEVEL PROCUREMENT

ProcuSphere is a cloud-hosted platform that offers smart supplier and contract management solutions.
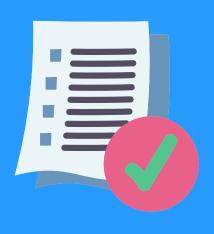

Solution 1

Mobile Accessibility - ProcuSphere is designed to optimise usage on mobile devices, making it easier for Procurement Managers and suppliers to stay connected and engaged, whenever and wherever they are.

Solution 2

Enhanced Collaborative Capabilities - ProcuSphere provides a centralised platform for Procurement Managers and suppliers to communicate, share information and collaborate in real-time using its built-in messaging system .

Solution 3

Effective Compliance Management - ProcuSphere ensures supplier compliance with quality and safety standards. In addition, it promotes procurement responsibility with its carbon emission tracker.

PROCU SPHERE

As you navigate through the ProcuSphere features, you will experience the ease and comfort of doing less for a higher output and shorter time.

INSTANT ACCESS

With instant access to the ProcuSphere application on any device, you can update all your suppliers and contract information, check suppliers compliances, raise an issue, or rate the performance of your suppliers anywhere, anytime.

SMOOTH INTEGRATION

With the availability of API, you can have painless integration with other platforms within a short period of time.
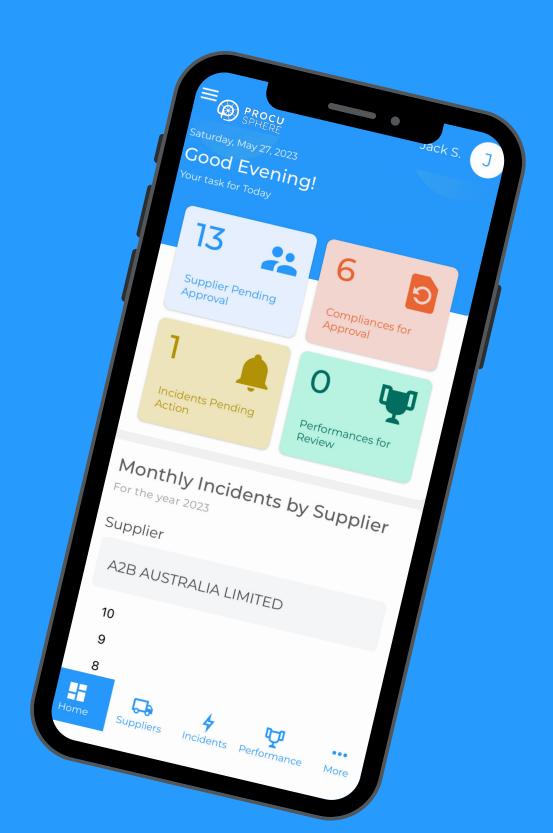

RELIABLE & SECURE HOSTING

Using one of the best cloud hosting providers, Amazon Web Services (AWS), you can be confident that your company will experience zero downtime and your data will be safely stored with secure data encryption.

PROFESSIONAL SUPPORT

With our professional, friendly IT team behind you supporting you right from implementation to daily supplier operations, your business will be well equipped to deliver expert services to your clients.

"We love to highlight the Online Review features of ProcuSphere."

ProcuSphere creates a Supplier Performance Review culture within organisations. These days, consumers make their buying decisions based on supplier ratings. Enterprise buyers should do the same.

With ProcuSphere, the performance ratings of the suppliers are visible to everyone in the organisation, enabling them to make wise buying decisions. With instant access on any device - one can can do a performance review of suppliers anywhere, anytime.
